SUMMARY

UX/UI Designer with a background in Computer Science, product ownership, and frontend development. Experienced in user interviews, wireframing, high-fidelity prototyping, responsive web design, and accessibility-focused interfaces. Skilled in Figma, Adobe Creative Cloud, and frontend tools, with the ability to connect user needs, business goals, and technical feasibility.

SKILLS

- Design Thinking
- Tools (Figma, Adobe, Affinity, Cursor)
- Technical (TypeScript, Java Script, React, Tailwind CSS)

PROJECTS

Revo Fitness App Redesign

UX/UI Project | Figma, User Interviews, High-Fidelity Mockups | 2026

- Conducted 5 user interviews to identify usability issues and user pain points.
- Defined project goals based on user experience problems and interface limitations.
- Created 4 high-fidelity mockups with a focus on usability & visual hierarchy.

iDriver App Redesign

UX/UI Project | User Interviews, Mobile App Redesign | 2026

- Interviewed 7 users to understand pain points in the existing app experience.
- Simplified navigation flows to help users access key functions faster.
- Designed high-fidelity screens for list and map-based navigation methods.

Port Jeffrey

Web Design & Development | Responsive Portfolio | 2025

- Designed and developed a 3D portfolio website to showcase UX/UI and web projects.
- Built a 3D-inspired visual design system with clear layout structure and visual hierarchy.
- Created light and dark display modes to improve viewing flexibility.

Katsu Seiba

Web Design | Responsive Website, Accessibility | 2025

- Designed a modern, responsive website concept for a Japanese restaurant.
- Applied accessibility principles to improve readability, contrast, and usability.
- Structured the interface to support clear navigation, menu visibility on any device.
